

## Residential

The unique patented combination of a laminate face with solid surface accents enhance **design, safety, and durability**. With thousands of solid surface and laminate combinations to choose from, your countertop can be as **creative** as your mind's eye without breaking the bank. Whether it's in the **kitchen, bath, or utility room** you can increase your investment with Gem-Loc Premier Edge.

## Commercial

Laminate is used in more applications than any other surfacing product for one simple reason. Dollar for dollar, laminate provides the **absolute best value**. Gem-Loc's magic is the elimination of those unsightly black lines and sharp edges normally associated with laminate. Our goal is to raise your satisfaction index while increasing the perceived value of your investment.

## Institutional

Gem-Loc Premier Edge is the **perfect solution** for both **work stations** and **reception areas** in institutional settings. Gem-Loc's **chemical resistance, infection control, soft edges**, and the ability to create highly visible perimeters makes it perfectly suited for use in **healthcare, educational** and **foodservice** facilities.

## NOW ENTERING THE TRANSFORMATION ZONE...

1

Select your laminate surface from below  
(or inquire about your preferred laminate products)

2

Consider - complementary or contrasting

3

Select your accent color from the swatches located on the inside panels of this brochure

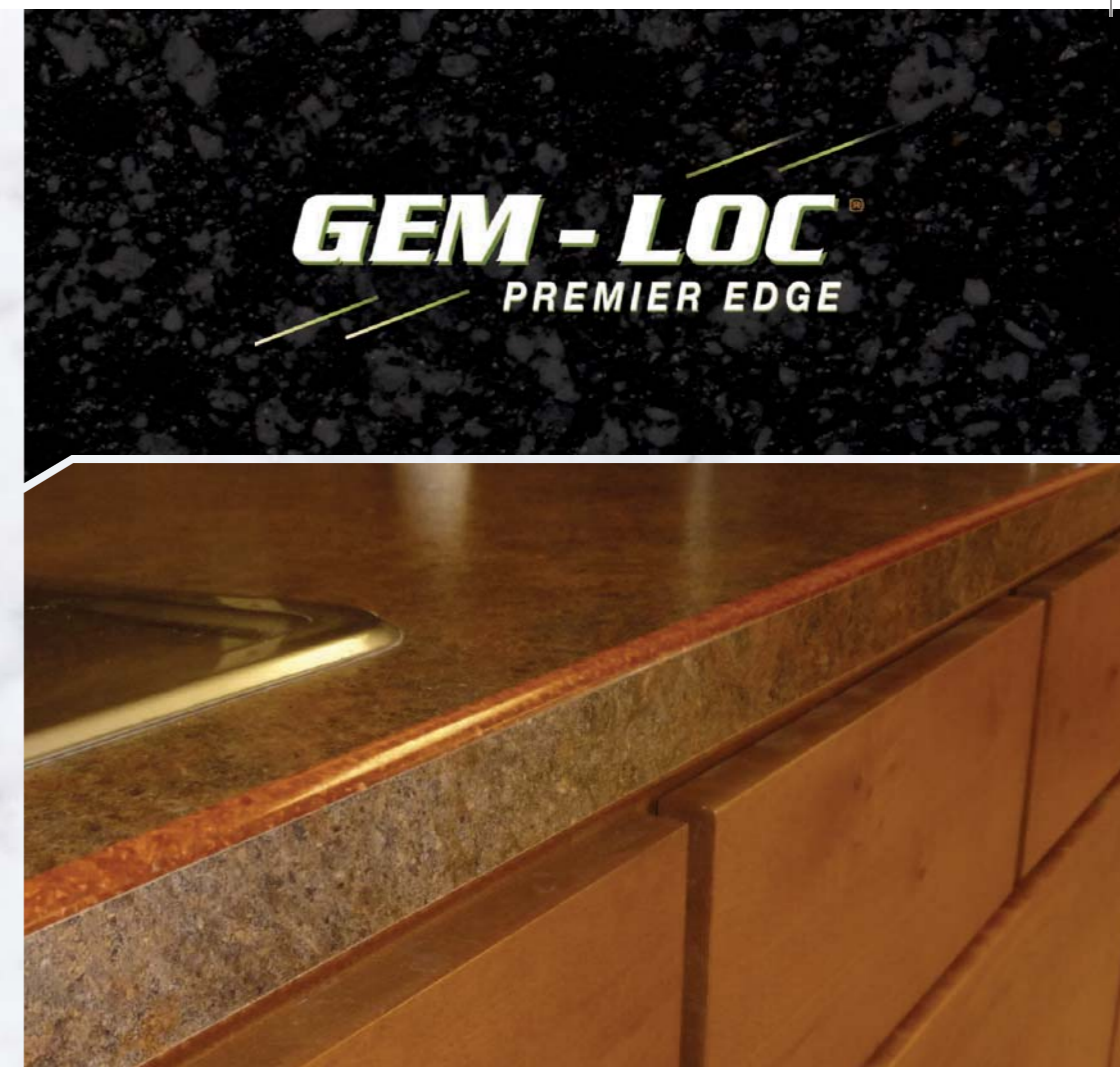

4

Place your order and prepare to have Gem-Loc Premier Edge transform:

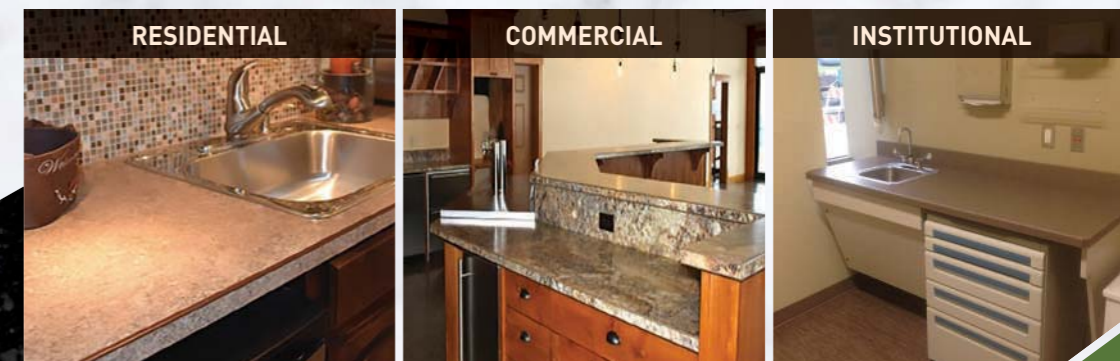

## WHY GEM-LOC PREMIER EDGE ?

- **Cost Effective Styling** – Gem-Loc Premier Edge provides a high-end look without the high-end price tag. Dollar for dollar, Gem-Loc increases the perceived value to you, your family, friends, clients, and even potential buyers more than any other edge treatment.
- **Endless Customization** – Given the extensive variety of available laminates and our wide range of solid surface accent colors, every piece of Gem-Loc is custom-made to your specifications. Whether you choose an accent that blends with the laminate, highlights cabinetry or flooring, or coordinates with other color schemes within your project, Gem-Loc gives you ultimate design control.
- **Earth Friendly** – Both high pressure laminate and solid surface are considered “green” since many of their components are recycled material and both are considered to have lower carbon footprints than even natural stone. The use of low VOC MDF produced from reclaimed wood fiber and low VOC adhesives ensures Gem-Loc is a sustainable product and safe for your home and family. No radon or toxin concerns here!
- **Durability/Repairability** – The edge of a countertop takes the most abuse and is the highest wear area. The patented solid surface accents of Gem-Loc are not only more resilient than laminate but scratches and small nicks that would make other edges unsightly can quickly and easily be renewed to their original beauty.
- **Waterproof** – All Gem-Loc surface materials and adhesives are completely waterproof. Our MDF substrate has the highest moisture resistance in the industry. When installed to manufacturer's specifications, Gem-Loc provides an impervious barrier to keep water out, permanently!
- **Safety** – The solid surface accents of Gem-Loc are shaped to a radius which produces a smooth rounded edge instead the sharp corners of other specialty edges. Gem-Loc greatly reduces drop, fall, and snag hazards.
- **Infection Control/Healthcare** – Unlike natural stone or wood, laminates and solid surface materials are nonporous and will not harbor bacteria. With its solid surface accents, laminate face, and waterproof seams, Gem-Loc leaves no places for microorganisms to hide.
- **Chemical Resistance** – Gem-Loc and its components are made to withstand all but the harshest chemicals. For truly harsh environments, such as laboratories, ask our staff about chemical grade laminate options.
- **Ease of Installation** – Requiring no special tools or adhesives, Gem-Loc Premier Edge can be cut, mitered, and applied using standard woodworking tools and procedures.
- **Low Maintenance** – Unlike so many other surfacing products, Gem-Loc countertops require no scheduled maintenance. Just use it and love it!
- **Retrofittable** – Gem-Loc makes renewing the edges of existing countertops a breeze. Just remove the existing edging, block sand a fresh surface, and apply Gem-Loc for a new look to your old top.
- **Warranty** – 10-year workmanship and defect replacement guarantee.
- **Made in the USA** – No big conglomerate here! We're just a small-town family-run operation proud to be making an outstanding, sustainable product to provide unparalleled value to you and your project.
